

## PCM200500

# Two towers with bridge, wood posts, plastic slide

Toddlers will love that this play structure resembles play structures for older children, but is in their size! The first tower is accessed via a step that will provide adequate physical challenge for the youngest toddlers. On the platform, children can play with the flowers panel, which features flowers that turn. From the hanging bridge the second platform can be reached from where the slide provides a fast exit.
