# Triple Tower, Ultimate, ADA Stairs

**KOMPAN**<sup>®</sup>  
Let's play

This great three tower play combination offers worlds of versatile play for all on elevated and ground level. A nice inclined platform stair takes the child securely onto the tower platform from which the child can play with the Count&Calculate panel or go down the slide. Another route out from the platform is up the bridge, spanning two levels and thus training the sense of balance and space. The middle platform can also be accessed by an ADA stairway, wide enough to allow for an assist.
