Double Meeting Point with Movable Hammocks

The invitation to socialise in a nice, varied framework allowing for interaction between different ages and abilities and allowing the space for bigger groups of users is always popular. Socialising in a framework allowing for different body positions and supporting those with both sturdy and swaying materials, that can be moved in cooperation, makes the Double Meeting Point with Movable Hammocks an attraction for the school age children of all ages. The varied seating on the bar, on the seats and not least in the gently swaying hammocks that can be pushed closer to each other or further apart to suit varied play scenarios allows for users across ages, abilities and different group sizes to meet and interact.
